

REFUGEE & MIGRANT EDUCATION EXPO

Education Pathways for Primary, Secondary & Beyond

Spectrum Migrant Resource Centre in collaboration with the Banyule Nillumbik LLEN Local Community Partnership is inviting families to attend an information session on education pathways for primary and secondary students. Representatives from the higher education sector, including universities, TAFEs and other training agencies will present information and resources to newly arrived parents that will support the Parents As Career Transition Support (PACTS) program. This expo is aimed toward easing concerns and intergenerational conflicts that exist in regard to education and vocational training, and to empower parents/caregivers to assist children and young people with these decisions.
